Notes & Warnings

- The trampoline should be installed on a stable base and properly leveled.
- The legs of the trampoline are installed tightly, please make sure not to pinch your fingers or hand during assembly.
- The elastic cords can be stiff in the early stages of usage of the trampoline and will loosen with time. Please be careful while install the trampoline and do not hurt your hand.

4 / 10

- The handle bar when attached to the trampoline will have some movement, and is designed for aiding your balance only. It is not designed to support your entire weight.
- The product is for indoor use only. Always ensure that the trampoline is used by only one person at a time.
- The product should NOT be used by persons weighting more than 220lbs/100kgs.
- Do not use trampoline if you have consumed alcohol or narcotic substances
- Must use the trampoline on wall to wall, carpet or a floor that is not slippery so unit does not slide when used.
- It's important to keep unsupervised children away from the trampoline when use the trampoline.
- It's important that when getting on the trampoline you shall not step on the frame as the trampoline otherwise bills;
- The safety level of the trampoline can be maintained only if it is examination regularly for damage and wear, e.g. elastic cords, connection points;
- Payspecial attention to components most susceptible to wear (e. g. mat, elastic cords);
- Replace defective components immediately and/or keep the equipment out of use until repair.
- Injuries to health may result from incorrect or excessive training.

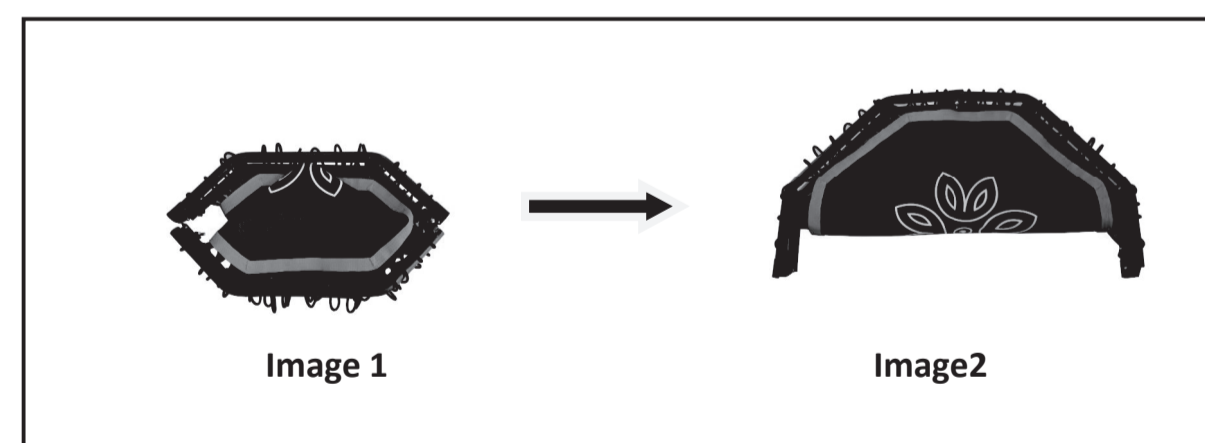

5 / 10

- While use the product, enough free space (more than 1m from all directions) should be kept.

WARNING
Keep others away from equipment when in use. Children under the age of 12 should be instructed before using the trampoline, as with any fitness exercise program, please consult with your doctor before use

-Assembly Instructions

- Lay the trampoline on the floor, in its still folded position (Image 1). Push out the ends according to the arrows on the picture, so the rebounder expands and looks like a half moon (Image 2).

6 / 10

With our logo and patterns down (Image 3)

WARNING: Frame will snap close, FIX the Trampoline with Safety Screws thus it will not snap close!!!! The Snap Back will be Dangerous!!! Please keep all fingers away from hinge are when opening and closing!!!!

- Install the safety screws on the hinge (Image 4), for this trampoline will not fold when using.

- With the trampoline now open and still upside down, install all 8 legs

T bar Assembly:

7 / 10

Attention: There is a hole at center of the frame tube, before install the bottom connect bar, please find the hole first (as shown A).

- Please find out bottom bar (TR06). To install on two legs, first remove rubber "feet" from these 2 legs, as shown B and C. Fix the bottom Bar TR06 with Two TR12 screws with help of Allen Key TR08, then recap rubber feet.

- Now connect the trampoline frame (TR01) and Bottom Bar (TR06) with the handle bar OUTER (TR05) by two long screws (TR09)

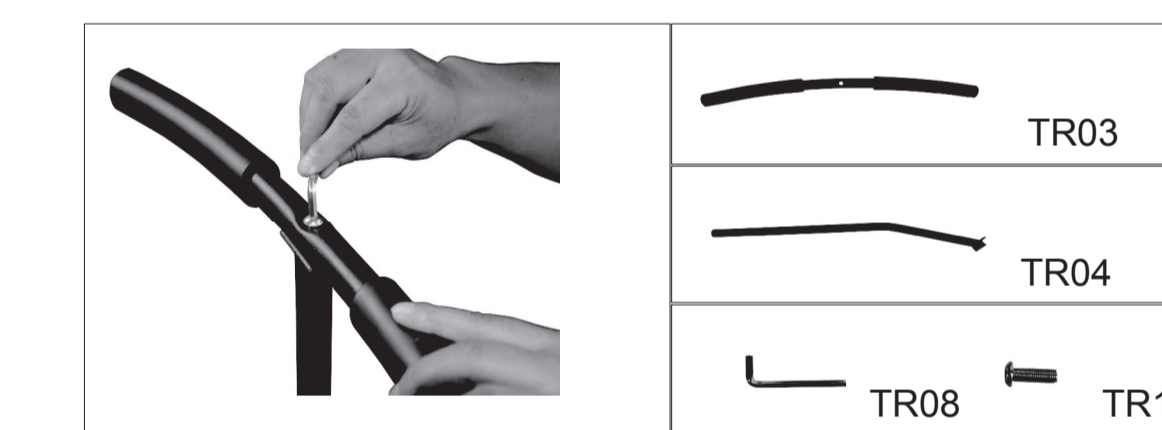

- Insert TR04 into TR05, fix with TR10 Screw, 3 positions for your choice

8 / 10

- Then install the Top bar (TR03) and inner bar (TR04) by screws, connect all parts as picture show

CLOSING UP INSTRUCTIONS

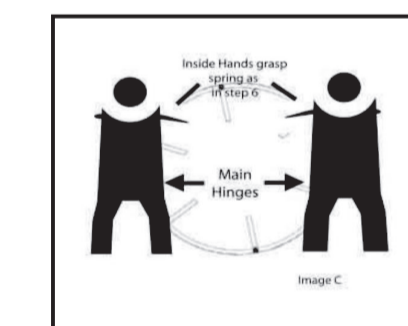

IMPORTANT SAFETY NOTE: Always close your trampoline with 2 people.

- Turn the unit upside down and lay it flat.
- Take each leg out.
- Locate the larger hinges on each side of the trampoline. Stand near the hinges on opposite sides of the trampoline facing the upper half of the frame

9 / 10

- Both persons kneel facing the "top half" of the trampoline and place their knee closest to the trampoline on the "bottom half" of the frame approximately 2 inches below (not on) the hinge (Image B).
- Both persons lean forward placing their outside hand on the ground and use their inside hand to grasp one of the spring ropes near the top of the trampoline (Image C)

- Together pull gently on the spring ropes and the top half of the frame will raise toward the middle. Ensure that your head is clear of moving frame
Note: Watch out for your hands, feet body part, etc. And always take 2 people to fold the trampoline
